

LAMAR NATIONAL BANK FRISCO BRANCH

Narrative

Description of Project

2022 Best of Community Banking
Entry- Architectural Design

The beautifully renovated branch has been transformed into an upscale contemporary open space that kept the original bank vault and granite flooring.

Upon entering the branch your eye is immediately drawn to the glassed conference room with a modern neutral palette that complements our colors designated for our bank. Featured in the conference room hangs an original piece of art by acclaimed contemporary artist Meredith Pardue.

Splashes of blue compliment the continuing neutrals throughout the space.

Offices are enclosed in almost seamless glass giving each a light an airy feel.

Waiting customers can help themselves to the refreshment bar located in the main customer seating area as well as look through the wall of glass doors that open into the Hall Park entrance where renowned contemporary art adorns their lobby.
