Conroe East Davis Banking Center Remodel

For more than 55 years, the First National Bank Texas East Davis Banking Center has served as a trusted financial institution in the Conroe, Texas community. Located in an area that faces economic challenges and ongoing revitalization needs, the branch has remained a constant presence, providing access to financial services, supporting residents, and contributing to neighborhood stability. In 2024, First National Bank Texas reaffirmed its commitment to the community by investing in a comprehensive renovation of the East Davis Banking Center. This investment not only modernizes a longstanding community landmark but also demonstrates the Bank's belief in the area's future, helping pave the way for continued economic development, private investment, and long-term community growth.

Rather than pursuing a complete demolition and rebuild, the First National Bank Texas selected a cost-effective and sustainable remodel approach, delivering significant value while modernizing the facility. The project transformed both the interior and exterior of the branch, enhancing curb appeal, improving operational efficiency, and creating a more welcoming environment for customers. The renovation included the addition of three new offices and a conference room to support future growth, upgraded restrooms and breakroom facilities, complete replacement of HVAC, plumbing, electrical, and ductwork systems, new flooring and millwork, updated data cabling, and modern branch and drive-thru equipment. Exterior improvements included a new roof, updated lighting, refreshed walls and soffits, removal of the outdated mansard roof, and a redesigned façade that presents a modern and professional appearance.

Throughout the renovation, First National Bank Texas remained committed to uninterrupted customers service by securing a nearby temporary banking location and maintaining access to critical services such as safe deposit boxes. The remodel reflects the Bank's dedication to responsible stewardship, customer experience, employee well-being, and long-term community investment.

First National Bank Texas President & CEO, Bobby Hoxworth, shares, "The East Davis Banking Center has been a part of the fabric of the Conroe community for generations. This renovation represents more than just an investment in a building, it is an investment in the people and businesses of Conroe. We are proud to continue serving as a trusted community partner and helping create future opportunities for growth and prosperity."

The Conroe East Davis Banking Center renovation is more than just a building improvement project, it is a commitment to the future of the Conroe community. By preserving a long-standing community landmark
